

Interviews with alumni – master students abroad

Please introduce yourself.

Zdravo. Ja sam Irakli from Tbilisija, Gruzija, I am full time student at the Ilia State University of the Social sciences faculty within the direction of Political science.

When did you graduate from the Faculty of Education?

I will graduate from the faculty of Education in July 2022

What did you do after getting your bachelor's degree? Did you immediately enroll in master's studies?

I am planning to continue studies at master degree in Conflict management and Humanitarian action or Peace buliding or to do volunteering in the continent of AFRICA as a language teacher.

Where do you study now? How did you get the chance to study abroad?

Currently, I am studying here in Jagodina as an Erasmus student at the faculty of Education. I got a scholarship which is financed by the European Union.

How did studying at the Faculty of Education help you get into the master's studies abroad?

I believe that studying at the faculty of Education in Jagodina will help me to getting ready in order to share my knowledge and experience to young people in Africa and not only. Besides studying experience at the international level definitely helps me to be more confident and continue master degree abroad.

What are the ways in which you benefit in your present studies from the skills, knowledge and competences the Faculty of Education taught you?

For me as social sciences student it's somehow familiar studying at the faculty of Education. I would say that I didn't knew so many specific things specially the subject that I have chosen at the faculty of Education. I hope I will have chance to share the methodologies of teaching/knowledge that I have gain to young people around the world.

Do you have any advice for students studying at the Faculty of Education in Jagodina?

I advise you use the opportunities that are offered to the citizens of Serbia, to the young people by the European Union and not only, in order to engage with the international community, learn new languages, be more confident with your studies and life goals. Use all the chances as much as you can!

Do you have any advice for high school graduates wishing to study at the Faculty of Education?

I believe that to the process of creating a peaceful, passionate, successful world communities, your contribution as a future teachers are one of the most significant, therefore I think that the profession that you are choosing now will benefit not only your communities but also world communities, I wish all the best of luck to all and I believe that nobody can change the world for the better place to live than future teachers!

Mnogo Vam hvala za sve!
